**Subject:** Re: Elk Hills Power Aquifer Exemption

I will be interested in hearing about how this relates to the current injection wells then.  
Is there a map you can send showing the wells and these other sections?

Hello Michele,

Yes, the current Class 1 disposal wells are in Section 18G, but we thought the direction from the workshop was to pursue exemptions like in Sections 1B and 2B where we already have written State Water Board approval. We would like to discuss the mechanics of doing so with you.

Thanks,

**Sonnie T. Pineda**

Hi Sonnie,

I am not in the office today, so I don't have a map to look at but aren't the wells in 18G?

Michele,

After attending the aquifer exemption workshops the clear direction from the state agencies and the EPA is only to submit applications where approval has already been obtained or will otherwise be assured. We have already received a written concurrence from the State Water Board for 1B/2B so we plan on pursuing the aquifer exemption for that area (instead of 18G). The purpose of the call is to discuss the mechanics, including timing, of doing so.

We will call you on Friday, April 17, 2015, at 9AM.

Thanks,

**Sonnie T. Pineda**

Great Sonnie. Just so you realize that time slot may not work for others, if needed. Hopefully it will. I am trying to be the most efficient with our limited time.

Hi Michele,

We are still working on the agenda. I will provide it to you by Wednesday when you get back as well as the call-in number.

Thanks,

Hi Sonnie,

If you provide me with your list of questions/agenda next Wednesday when I am back in the office, I can try to have the right people available for the call on Friday, but again, it would be better to know the exact purpose of the call before scheduling.

Thanks!

Michelle,

It looks like Friday (April 17, 2015) next week at 9AM looks good.

Hi Sonnie, I am out of the office on Monday and Tuesday so receiving any questions I may have to prepare for on Tuesday will not be helpful. If I cannot get the questions today, we will need to move the call till Friday or the following week. If it's just informational, there will be no problem with having the call on Wednesday. I would be available for 30 minutes between 10 and 11:30, with a hard stop at 12. Thanks.

Wednesday mid-morning is ok. I expect it to last for only 30-minutes. We will send out a list to discuss/information a day ahead of the scheduled call.

Rick will be sending out the conference call in number.

Thanks,

**Sonnie T. Pineda**

Hi Sonnie,

My schedule is pretty packed next week, and I am out of the office Monday and Tuesday. Friday is actually the best day. Can we schedule it for Friday? If not, I can arrange 30 minutes on Wednesday, mid- morning or afternoon. What will we actually be discussing? Do you or your consultant have additional questions? Do you want to provide a list of questions in advance so we can get through the discussion more quickly? Just wondering if there is a way to be most efficient.

Sincerely,

Michele

Michelle,

We would like to schedule a conference call with you next week . What is the best time to set up the conference call with you, Tuesday, Wednesday or Thursday ?

This is to discuss the Elk Hills Power Aquifer Exemption progress.
